

## CURRICULUM VITAE

FAMILY NAME: **Casalbuoni**  
FIRST NAME: **Roberto**  
BIRTHPLACE: **Firenze, Italy**  
DATE OF BIRTH: **September 21, 1942**  
NATIONALITY: **Italian**  
MARITAL STATUS: **Married**

MOTHER TONGUE: **Italian**  
OTHER LANGUAGES: **English, French**

CURRENT ACTIVITY: Full Professor of Theoretical Physics  
Dept. of Physics  
ADDRESS : University of Florence  
Via G. Sansone 1  
I-50019 Sesto Fiorentino (FI)  
Italy  
E-MAIL : [casalbuoni@fi.infn.it](mailto:casalbuoni@fi.infn.it)  
TEL. : +39-055-4572318  
FAX : +39-055-4572121

- **Education:** Graduated at the University of Florence in March 1969 with Prof. R. Gatto as supervisor.
- **Employments:**
  - 1971-1987, Italian National Institute of Nuclear Physics (INFN) in Florence.
  - 1987-1990, Professor of Theoretical Physics at the Department of Physics, University of Lecce, Italy.
  - From 1990 Professor of Theoretical Physics at the Department of Physics of the University of Florence.

- **Duties:**
  - 1981-1987, Director of The Florence Section of INFN.
  - 1994-1997, Chairman of the Physics Department of the University of Florence.
  - 1999-2002 Dean of the Faculty of Mathematical, Physical and Natural Sciences of the University of Florence.
  - President of the "Fondazione della Riccia", an Italian institution providing fellowships to young Italian researchers in the field of microphysics to be spent abroad.
  - Since 2005, Deputy Coordinator of the Galileo Galilei Institute for Theoretical Physics.
  - Since 2006 President of the OpenLab, a center for the dissemination of science.
  - 2006-2007 member of the Administrative Council of the University of Florence.
- **Academic Activities:**
  - Many undergraduated courses delivered at the Universities of Lecce, Florence and Geneva. Graduated courses delivered at the Scuola di Dottorato in Florence.
  - Thesis supervisor of many students at the University of Florence.
  - Inducted in the Society of Scholars of the Johns Hopkins University
- **Scientific activity:**
  - Scientific visitor, for various periods of time, at Institutions as Johns Hopkins University, CERN - Geneva, SLAC - Stanford California, Geneva University and DESY - Amburgo
  - Participation at the LEP working group on new vector bosons (1989)
  - Participation at the LHC working groups on proton-proton scattering and on heavy ions scattering (1990)
  - Participation at the working groups on Physics Studies of an electron positron linear collider (1991-1998)

- Participation at the LEP2 working group on new particles (1996)
- Participation at the working group on Prospective Study of Muon Storage Ring in Europe (1998)
- Organizing Committees:
  - Member of the Organizing Committee of the Johns Hopkins Workshop since 1978
  - Member of the International Advisory Board of the S. Miniato meeting (1987, 1991 and 1992)
  - Co-chairman of the Organizing Committee of the 6<sup>th</sup> International Conference on Path Integrals, Florence (1998)
  - Member of the Scientific Committee of the Galileo Galilei Institute for Theoretical Physics
- **Research activity:** See the publication list
